

**A NEW INTERACTIVE
GOLFING EXPERIENCE**

CONDOR
Golf System

WHAT IS CONDOR GOLF SYSTEM?

Condor is specialist golf software developed to enhance golf. Golf groups carry a Condor smartphone around the course. The Condor app sends location data and golf score data back to the system in real time.

LIVE SCORING

Live Scoring adds a brand new element to your golf day. We make your round more interactive with hole by hole scoring that translates into a real time leaderboard in both the clubhouse and on course.

GPS

We understand the challenges that organisers face with golf days. Using GPS tracking we are able, in real time, to show you where each group is and which hole they are on.

Pace of play alerts mean you instantly know if any group is slowing the course down, such accurate timings allow you to have catering or presentations ready when golfers arrive back in the clubhouse.

Knowing the location of a group can be invaluable both from a safety viewpoint or even if you want to send drinks out.

YOUR DAY

Before the day

Send information to us and the tournament will be set up on our system.

Arrival

Condor can sign golfers in and will assign a Condor smartphone to each team. We suggest the most tech savvy golfer take responsibility at this point!

Pre tee-off

There will be a brief demonstration of Condor. All rules for the day can then be sent to teams on the Condor group messaging system.

During play

Scores are entered after each hole. The live leaderboard can be viewed on the big screen & on the phones. Use the messaging app to stay in contact with the whole field or individual groups. Great for chasing slow teams, answering queries or ordering drinks. Other features include R&A Rules of Golf, weather forecast and a GPS rangefinder.

After the round

The big screen will display the final leaderboard including player comments. Get stats on how each team played, including a google route they took around the course. Each player can get a detailed individual scorecard.

After the day

All data is kept and can be emailed to you for reference or advertising.

ORGANISER BENEFITS

Let Condor manage your tournament, from pre-entry information to end of the day feedback & leaderboards.

- Know the location & speed of every group
- Condor messaging service allows you to communicate with the whole field or individual teams
- Accurate timings to plan post-round activities
- Live scoring & leaderboards make processing your day easier
- Condor prizes for fastest & slowest teams
- Modern technology and stunning visuals give your golf day the prestige it deserves

The screenshot displays the Condor Golf System web interface. On the left, a satellite map shows a golf course layout with green lines indicating group paths and yellow markers for individual groups. On the right, a 'LEADERBOARD' table lists tournament participants with columns for Player, Gender, HOLE IN ONE, TIME, and TIME AT FLAG. The table shows several entries, with the top performer highlighted in red. Below the table, there are controls for 'Show All', 'Print', and 'Close'. A 'My Account' link is visible in the top right corner. At the bottom of the interface, a system message reads: 'Show Meets Than Set Time Alert: Alert for 5 Stop when their set time is hole 6, Total time spent in hole is 48. Minutes 3 seconds 17. and 2016-09-03 17:00:00'. The footer of the interface includes the copyright notice '© 2016 Condor Golf System by G.S.G.'.
